CONVOYER'S REPORT: Arrived on site at 12.15am and put drinkers on. Up at 5.45am to clear skies with no wind. Called John at 7.00 and provisionally agreed to go at 8.00am. By 7.20am the skies to the north had filled with low black clouds so I spoke to John again to say that we'd better go soon, so we liberated at 7.40am and birds cleared in 2 batches to the south east immediately.
